

Sprint 1 Report

Pocket Modular
Team Medley
Tuesday, July 09, 2019

- **Action to stop doing:**
 - We should reduce documentation analysis.
- **Actions to start doing:**
 - The team should start working on cross-communication. That is, they should communicate more frequently throughout the sprint cycle.
 - The team should start creating different modules in Pure Data.
- **Actions to keep doing:**
 - Keep building thoughtful UI elements. This involves communication throughout the UI design process to ensure from the user's point of view that they understand how to interact with the app..
- **Work completed/not completed:**
 - Completed:
 - As a user, responsive app with low latency.
 - As a musician, I want to be able to see what notes I am playing.
 - As a producer, I want to experiment with melody and chords to get inspired.
- **Work completion rate:**
 - Four user stories completed (1.75 per day).
 - 26 ideal work hours. (3.7 per day)
 - 7 days long.

Sprint 1
